

AARP® PRESENTATION

SORTING FACT FROM FICTION ON THE INTERNET

An Aging Gracefully program designed to help you separate fact from fiction and stay safe in today's digital world.

Do you believe everything you see online? There are plenty of sensationalized headlines, misleading stories and even complete falsehoods circulating on the Internet, making it hard for even the most discerning reader to sort fact from fiction. This presentation will equip you with valuable tools and resources to help you stay safe online.

All are welcome- No registration required!
