This summer will be a special time for children to consider what we often overlook - Jesus had a childhood! Children will go back in time to learn about life during Jesus's childhood from His mother Mary, Joseph, Simeon, and Nicodemus!

*What can children glean from Jesus's childhood?*

They'll discover that while Jesus was God's Son, He also had many of the same emotions and experiences that we do today. Jesus had a family, meaningful name, home, place to worship, and His life was marked by service ~ all determined by God and for us! We hope that kids will walk away with the comfort of knowing that God understands them, cares for them, and loves them enough to give his only Son for them.
